

Hi-Wett® Super-spreader, **Hi-Wett® Xtra** Super-spreader/sticker
Suggested dose rate table for **HOPS**

Approx. rate of **Hi-Wett** in fl.ozs/acre with multi-mixtures

Target	Total pints and pounds of product in mix per acre								
	1	2	3	4	5	6	7	8	9+
Foliage	2.4	2.4	3.2	3.2	4	4	4.8	4.8	5.6

- NOTES:
1. Include all formulated foliar nutrients (e.g. Hydromag), but do NOT include fertiliser salts (e.g. urea, Nutrileaf, etc.)
 2. When using Bravo, Switch, Topas or Tracel alone or in tank mixes, add additional 0.8 fl.oz/acre of **Hi-Wett**
 3. When using Li-700 penetrant add additional 0.8 fl.oz/acre of **Hi-Wett**
 4. When using either Rovral FLO or WDG, or Serenade add additional 1.6 fl.oz/acre of **Hi-Wett**
 - 5 Do not use **Hi-Wett Xtra** or **Hi-Wett** with Oils. Add **OilMate®II** to the oil at 1% (1 litre to 100 litres of oil)
 6. Substitute **Hi-Wett Xtra** for **Hi-Wett** if rain is expected within 5 days. Use double the chart rates for **Hi-Wett Xtra**.
 7. Do not use the above rates for **Hi-Wett** or **Hi-Wett Xtra** in high water rates (over 25 gals/acre) as run-off may occur
